

## **A Commitment to Safety and Wellness**

### Community Guidelines

Guided by our core values of respect, collaboration, integrity, and compassion we are working to foster a safe and inclusive Annual Training Forum and encourage you to join us in creating a safe space that supports our collective wellness.

Recognizing that we will be engaged in and exposed to stories, conversations and materials that could activate personal trauma, we encourage you to pay attention to your experience as a participant.

As we build our community of support at this in-person event, we ask that each one of us take responsibility and be accountable for our own behaviour. We know that sometimes our impact can be greater than our intent. Please offer content warnings if you are going to share potential traumatizing content.

If you have feedback or suggestions, please find us at the registration table (Lower Lobby) or reach out to us at [atf@endingviolence.org](mailto:atf@endingviolence.org).

Thank you for working together with us to create a safe space for everyone.
